SKYBEAM Building Asset Mapping Proposal

MM/DD/YYYY

We are pleased to submit our proposal to complete a SKYBEAM building envelope analysis on your facility. We extend this submission and all information contained herein for your evaluation, feedback and recommendations for further refinement.

SkyBEAM™ (Building Envelope Asset Mapping) is a ground-breaking program that uses unmanned aerial vehicles (UAVs) equipped with high-definition (HD) and thermographic (infrared) cameras to locate buildings' energy leaks, rooftop damage, deteriorating façades, safety issues and other potential problems.

We recognize the importance of delivering building envelope services and projects in a professional, timely, cost effective and efficient manner. We are confident that WTC's qualifications, experience of team members, and management approach will yield long term beneficial rewards. We plan to deliver outstanding service using quality processes, proven methodologies and a team-oriented approach.

Sincerely,

Dave Mundy
Senior Field Advisor

SKYBEAM Building Asset Mapping Proposal

Service Includes

- Visual daytime image of entire facility
- Thermographic image of entire facility
